IRANOPEN

Iran had the most major number of participants after Japan among the worldwide participants of RoboCup 2005. This static clearly reveals the fact robotics science and especially the RoboCup competition have become as major issues among universities and colleges in Iran. Unfortunately despite the spectacular participation of Iranian teams, there is no official local event in Iran. To achieve this goal, Islamic Azad University has authorized the IranOpen competition. In IranOpen competition all the teams can challenge with the most powerful teams in RoboCup and prepare themselves for World cup.

IRANOPEN 2006

IranOpen 2006 will be held 7th - 9th April in Iran International Fair - Tehran. Competition hall will be fully equipped for the event. Teams will have conference room time to talk about there league. You can find out more about the event on official website at:
<http://www.IranOpen2006.ir>
